

"Train"

Take, take, take
Take this train
Take it back home again

Sitting by the tracks near the station
Smoking my last cigarette,
I just got to wait for this train to arrive

This train can take you anywhere, anywhere at all
This train can take you anywhere,
This train can take you anywhere you want

Take, take, take,
Take this train
Take it back home again

I ain't got money for a cab, no
Ain't got no style for a limo
I just got to wait for this train to arrive

This train can take you anywhere, anywhere at all
This train can take you anywhere,
This train can take you anywhere you want

Take, take, take
Take this train
Take it back home again

We just bought ourselves a ticket
Destination seems so far away
We just got to wait for this train to arrive

This train can take you anywhere, anywhere at all
This train can take you anywhere,
This train can take you anywhere you want

Take, take, take
Take this train
Take it back home again

Take, take, take this train back home again
Take, take, take this train back home again
